

How to use your Quattro Mechanism

4 lever independent mechanism

Simplistic controls located on EITHER side make this mechanism really easy to use and ultra ergonomic. This quick and easy mechanism has been developed to put the user in full control of their chair, enabling them to work in free flow mode or lock the chair into a position that is comfortable for them.

1) Seat Height Adjustment

Raise lever to raise or lower height of seat.

2) Seat Angle Adjustment

Raise lever to set seat angle, push down to lock into desired position.

3) Backrest Angle Adjustment

Raise lever to set independent back angle, push down to lock into desired position.

4) Seat Tilt Adjustment

Rotate lever clockwise to increase seat tilt, rotate anti-clockwise to decrease seat tilt.

5) Body Weight Tension Adjustment

Wind hand-wheel clockwise to loosen and anti-clockwise to tighten.

6) Seat Slide Adjustment

Raise lever to alter seat depth by sliding body forward, push down to lock into desired position.
